DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 1-24 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for the steps of segmenting ... and analyzing each text, does not reasonably provide enablement for the step of “selecting a theory of discourse analysis for teaching writing.” The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make or use the invention commensurate in scope with these claims.

2. Claims 1-24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The specification does not describe the step of “selecting a theory of discourse analysis”. The specification describes on page 6, line 21 different linguistics theories build discourse from different basic text building units. In various embodiments, the linguistic Discourse Model is used to analyze the text and categorize the text building unit”; on page 7, lines 15, various exemplary...discourse analysis.”. However, the specification does not describe any selection process. Also, the claim is vague and indefinite because the limitation “selecting a theory of discourse analysis for teaching writing” does not set the metes and bounds of the claims. It is also

Art Unit: 2654

unclear from what the selection process is taken place since the claim is silent about , for instance a plurality of discourse theories.

Drawings

3. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the step of “selecting a theory of discourse analysis for teaching writing” must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371© of this title before the invention thereof by the applicant for patent.

Art Unit: 2654

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

5. Claims 1-3, 8-9 and 12-13 are rejected under 35 U.S.C. 102(e) as being anticipated by Cortson et al (6,112,168).

Claim Rejections - 35 USC § 103

6. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

7. Claims 4-6, 10-11, 16-18, 20 and 22-24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cortson in view of Takeshita et al (5,642,520) as set forth in prior Office Action .

8. Any response to this action should be mailed to:

Commissioner of Patents and Trademarks

Washington, D.C. 20231 or faxed to:
